ENVIRONMENTAL LICENSE PLATE PROGRAM

Jesse White
Secretary of State

A message to drivers who love the outdoors

It is a privilege to offer Illinois vehicle owners the opportunity to support our state parks and natural wildlife habitats by purchasing Environmental License Plates.

Environmental Plates — or "E" Plates — feature our state bird, the cardinal, and our state prairie grass, big bluestem. The sale of each set of plates generates \$25 for the Illinois Department of Natural Resource's State Park Trust Fund, which is used to maintain and preserve state parks throughout Illinois. By renewing your "E" plates annually, you will continue to support state parks, with a portion of the fee going to the fund.

I encourage you to take advantage of this unique opportunity to display these attractive plates and show your support for the preservation of our state's natural resources and recreational areas.

Sincerely,

JESSE WHITE
Secretary of State
